Experience

Division of Career Pathways Graphic Designer/Content Creator
January 2023 - present

- Worked with developers to redesign the Division of Career Pathways website according to updated user data and accessibility needs
- Designed graphics using Adobe Illustrator and Figma for the DCP social media pages

Design and Partnership Lab UI/UX Research Assistant
September 2022 - present

- Collaboratively helped design a data visualization site for math teachers, using human centered design techniques
- Used figma to create a design system for consistency in design
- Used react, tailwind, and daisy UI to code a functional prototype

Girls Who Code Lead Teaching Assistant
June 2022 - August 2022

- Taught high school students how to make a website using HTML, CSS, and Javascript
- Worked with Synchrony, K1, Walmart, Moodys, and EY during partner events.
- Each summer session consisted of 3 rounds of classrooms, each classroom having about 60 students enrolled

Education

University of California, Irvine

*B.S. in Informatics
Specialization in
Human-Computer
Interaction
Minor in Digital Art*

Skills + Tools

Design Tools

Projects

Rooted UX/UI Designer

January 2022 - March 2022

- Collaboratively created an app, with a team of 6, for beginner plant parents
- Researched competitor apps in order to find their strengths/weaknesses
- Interviewed a total of 12 potential users to gain insight over what the app's users want/need
- Wireframed and made an interactive prototype via Figma

CamelIn UX Designer + Researcher

September 2022 - March 2023

- Worked closely with a sponsor, graphic designer, and team to create a gamer networking application
- Created user flow diagrams to visualize the content and flow of each page, using figma
- Designed multiple webpages using figma, then used React and Amazon AWS to code a functioning prototype
